

## RP RADIANT CEILING PANELS

### What is a Radiant Ceiling Panel?

A discreet, energy-efficient heating solution for commercial spaces such as offices, classrooms, and care homes. Radiant panels save wall space and can be easily installed either in a grid ceiling or surface-mounted using the supplied brackets. Radiant panels emit gentle radiant heat with zero light or noise output.

### Key Features

- Radiant heat without light output
- Quick and easy installation into a standard (24mm) suspended ceiling grid
- Bracket provided for easy mounting onto a conventional ceiling
- Attractive white easy-clean finish (RAL9010)
- IP44 rated

#### Energy Saving Tip

Radiant panel's radiant effect makes you feel warmer than the actual ambient air temp. This means you can set your thermostat 3-4°C lower.

## Heaters

Model	kW
RP3-03	0.3
RP3-06	0.6

## Technical

Model	kW	Volts	Dimensions (mm)			Recommended Mounting Height (m)		Weight (kg)
			H	W	D	Min	Max	
RP3-03	0.3	230	25	592	592	2.4	4.0	5.9
RP3-06	0.6	230	25	1192	592	2.4	4.0	11.3

## Accessories

Model	Description	Details
 RD16	Electronic programmable thermostat 16A (recessed)*	Page 122
 RT16	Programmable thermostat 16A*	Page 122
 RT26	Programmable thermostat 26A*	Page 123
 WD16	Wi-Fi thermostat 16A (recessed - free app)*	Page 123
 WT16	Wi-Fi thermostat 16A (free app)*	Page 124
 WT26	Wi-Fi thermostat 26A (free app)*	Page 124
 CX5	Optional remote-mounted temperature sensor for use with RT or WT thermostats	Page 131
 RST3-IN	Adjustable room thermostat 16A	Page 120
 RST3-TP	Tamperproof room thermostat 16A	Page 120

For larger installations we recommend our PC control box - see pages 86-89

\*Tamperproof function available on these models

### Office

**Location:** Croydon, London

**Installed:** 24 x 300W radiant panels

**Aston Martin**

**Location:** Bristol

**Installed:** 4 x 600W Radiant Ceiling Panels
