

SCH CEILING GRID HEATERS

What is a Ceiling Grid Heater?

A staple solution for space heating in commercial environments such as shops, cafes and schools. Our ceiling heaters are designed to save valuable wall space and fit seamlessly into standard 600 x 600 grid ceilings, providing discreet and efficient warmth exactly where it's needed.

Key Features

- Designed to rest in the T bar of a 600 x 600 suspended ceiling
- White egg-crate grille supplied with every heater
- Low profile design – only 200mm clearance required above grid
- Models with a 'T' suffix have adjustable electronic thermostat
- All heaters can be controlled via the CS-8, CS-9, CS-DT and CS-WIFI controllers due to some models having internal relays
- For multi-heater installations see SystemX (page 12-13)

Energy Saving Tip

Control with a 7-day programmable thermostat to keep your running costs to an absolute minimum.

SCH Ceiling Grid Fan Heaters

Model	kW	Built-in Thermostat
SCHG-30	3.0	No
SCHG-30T	3.0	Yes
SCHG-45R	4.5	No
SCHG-60	6.0	No

Controls

	Description	Model	Details
	Switch for single fan heater (on/off/high heat/low heat/fan only)	CS-8 NEW	Page 134
